Subject: Update on RWQCB's Approach to Tustin PFAS
Signed By: GUY.CHAMMAS@NAVY.MIL
Importance: High

Jim,
During our monthly BCT call this morning, our RWQCB representative Patricia Hannon surprisingly indicated that she would likely NOT be requesting additional PFAS investigation at Tustin (and presumably also at El Toro). She apparently had some internal discussions with her management and because of the lack of an enforceable standard, there is no driver at this point. So although the City will almost certainly request additional investigation, RWQCB, at least at this juncture, will not be.
